SPECIFIC ROLES

Q4Life: the role of the Q4Life platform is to build the most integral business community for best quality of life, the world over.

The Role of Affiliate Agencies (AAG): Affiliates are a sub-set of the AAG superset of 20 affiliates; the the role of the AAG is to manage an affiliate program of 20 affiliates required to support the Q4 network of business entities (BsEs).

The Role of Affiliates (AFF):

An affiliate's role is to superintend the training (Education and development) of the BsE owner; to design, develop, and strategize together with BsE owner (BsE-O), with respect to available tools and technologies of the Q4Life platform, the number of BE transactions; i.e. to quantify and qualify (via Q4Life Econometrics) the number of BE transactions required from the designated profit or outcome (between Q4-F/AD), and to ensure that the BsE owner is adapting to, and learning and owning the scholarship in the Q4Life system or platform via the achievement of a growth linearity within the first 6 months, and progressively or arithmetically, attaining the standards of the Q4 platform (Q4-C) by the 10th month within a year's contract, to ensure the qualification and quantification of the business challenges required by the platform.

Role of a Business Entity (BsE):

The business entity owner (BsE-O) has a role in the Q4Life platform as a sharer/member in that community; without adequate transactions of value, no profits or money would be shared; hence the BsE-O is responsible for meaningfully participating in the creation of values that would increase quality of life in the Q4Life community, where we encourage consumers of values to be producers of the same; to afford a service, you need to be able to create and offer one.

Trading/Transaction Tiers & Profit Holdings of the Q4Life Platform

- Q4-Fundamentals (Q4-F): This Critical Action Learning environment is a beginner/entry level to enable mastery of fundamental corporate development concepts, personal and professional tenacity, strategy, achievement of growth linearity, etc., on a quantified and qualified designation of \$1000 as lower-limit for beginner/entry level profit holdings, to properly engage the Q4Life fundamental scholarly practice.

- **Q4-Core(Q4-C)** requires core mastery of nitty-gritty aspects of the platform to develop arithmetic-geometric profit progression between \$2000 - \$10000. Q4-C is considered the standard of the Q4Life platform; integral engagement of the quantification/qualification contingent probability axiom of outcomes and investments, known as the Q4Life Econometrics.

- Q4-AD is an advanced trading/transactions tier that would require the wielding of sophisticated Q4Life Education tools and technologies.

Q4Life PROFIT ALLOTMENT/HOLDINGS: An Example - Q4-C

Profits are allotted with respect to the trading/transaction profit margin of 130%.

Business Entity (BsE/BsE-O) = 70% (100% of BsE investments)

Q4Life Platform = 30% (Q4 System = 15%, AAG= 5%, AFF =10%)

For Example: BsE transactions in a Q4-C at \$2000 profits via a single Q4-C AAG's AFF platform would wield the following profit holdings;

Total Transaction Profits = \$2857142.86

BsE/BsE-O = \$2000

Q4-S = \$428571.43

Q4-AAG = \$142857.14

Q4-AFF = \$285714.29 (AFF Platform)/\$14285.71 per AFF

Q4Life Education and Development Subscription Costs: 1 USD = 576.69

AAG = \$10,404.35

AFF = \$1734.11

BsE-O Lower-limit = Designated profit at Q4-F, Q4-C STD

Q4Life Education purports that reception of a better quality of life by everyone is dependent on their active, free and meaningful participation is the production of better-best quality of Life (QoL) services for everyone; reception of quality is afforded by production of the same; reception of quality can only be afforded by the production of quality: this is the Q4Life ideal.

NB: The Q4Life Platform is an auxiliary of a scholarly international corporation development construct, with aim to enable you share in a community where business has no borders, possibilities are endless; you can become a partner/affiliate to a support network for multilateral businesses, or, and, become the imperium in a chosen set of aggregates.

The best way to predict your future is to create it. Abraham Lincoln
